

Charlie Kaylor

Full Stack Developer | C# | ASP.NET | JavaScript | SQL

Plymouth, UK | [Email](#) | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Summary of Qualifications

I am a passionate Software Developer, with a particular focus on C# and .NET to build high quality full stack applications. I've developed skills in building professional, stylish, responsive, secure and scalable web applications that are all underpinned by good quality code and sound software design/architecture. I have a varied background consisting of a degree in Law, PGCE in teaching, with roles in recruitment, teaching, professional Ice Hockey & retail. I produce high quality results in anything I do and hope to do the same for your business.

Key Technology Skills

C# | ASP.NET Core MVC | JavaScript | Databases (PostgreSQL – relational) | Razor | Entity Framework | Bootstrap | CSS3 | HTML5 | JSON | GitHub | OOP | Functional Programming | LINQ | Visual Studio & VS Code | SEO
